While we are home, why not be a special agent? Learn, listen, and be stealthy.

Share your newly learned special agent wisdom with us @gsnnj

Supplies:

- Tape
- Paper
- Pencils
- Tape measure
- Camera or phone
- Wi-Fi or cable connected device (for your research)

Special Agent Challenge Explained

1. You are "Jane Bond"

Research a female spy and answer the following:

- Is she "good" or "bad"?
- What is her real name and code name?
- What was her mission(s)
- What was her cover identity?

Viginia Hall

Code named Marie and Diane, was an American who worked with the United Kingdom's clandestine Special Operations Executive and later with the American Office of Strategic Services.

- What techniques or methods were used to gain intelligence, solve crimes, or secretly share information?
- What is the most impressive thing you learned ?

2. Body Language, Its an Art

- Learn about body language, find out how to appear confident, or disguise what you're thinking or feeling.
- Take pictures of people's facial expressions in your home and compare them to a feeling describer ie. happy, sad, annoyed, etc.

3. Crime Scene Time (Get the family involved)

- Practice your observation skills. Observe the things in a room in your home
- Have someone in your household change around (move) a few items in a room ie. living room, bedroom, kitchen, etc.
- Go into the "changed" room and find the items that are out of place. Document your findings: take pictures, notes, and measurements
- Interview your witnesses if possible (in your household), write a script for your own forensic drama together, and/or take turns describing someone while your partner skethes the face you are describing.
- For more family fun, design a disguise to make you unreconizable and channel your inner spy.
