

Juniors

We have a challenge for you!

Digital Photographer Challenge

Be a photographer!

- 1. Learn about digital cameras from an expert**
- 2. Take tons of photos**
- 3. Edit three photos**
- 4. Make a digital photo project**
- 5. Share @gsnnj**

Everyone thinks of the world and their surroundings differently. Take tons of photos, edit, and learn from a photography expert. Take photos from your point of view and show your family and friends an insight into your mind's eye. Share with us at gsnnj.

Supplies:

- Paper**
- Pencil or pen**
- Computer or internet capable device**
- Camera or cell phone**

Get creative and have fun. Make a panoramic photo (wide view surrounding the observer; sweeping). When you take your panoramic photos find objects that are the same color, shape, or size.

With your camera:

- Take 6 macro photos of your yourself.**
- Take 6 photos of objects that are all the same color.**
- Take 3 portrait photos of different objects or people in your home and edit.**
- Take 6 photos of someone in motion.**

If possible, print out your favorite photos and make a photo frame.

Digital Photographer Challenge Examples

To learn from an expert, check out:

<https://online.nikonschool.com/course/creators-mindset-creating-video-content-with-z-50/>

Nikon is offering free online courses through the month of April.

Macro Photography

Photography producing photos of small items larger than life size.

Micro Photography

Photography with a magnification ratio of 20:1 or greater. That's right – it looks at least twenty times bigger on your camera's sensor than it does in real life.

Make your own photo frame
